'peakvox Mew Mew Chamber for Steam' while interestingly named, is really just a cute little puzzle game, albeit a bit poorly translated. Luckily, there's not much reading to be done. It's not a huge game, but it does not come at a huge price. The game has two modes: a free mode where one can simply match falling kittens to their heart's content, and a mission mode where there are set objectives with limited moves (i.e. clear all cats in one move).

This is not a terrible complicated game because it doesn't really need to be. It only needs to be adorable-- and it does this very well. Recommended if you're interested in a short, sweet sliding match-3 (trozei-like?) game..
